

We believe no care worker should face financial hardship alone

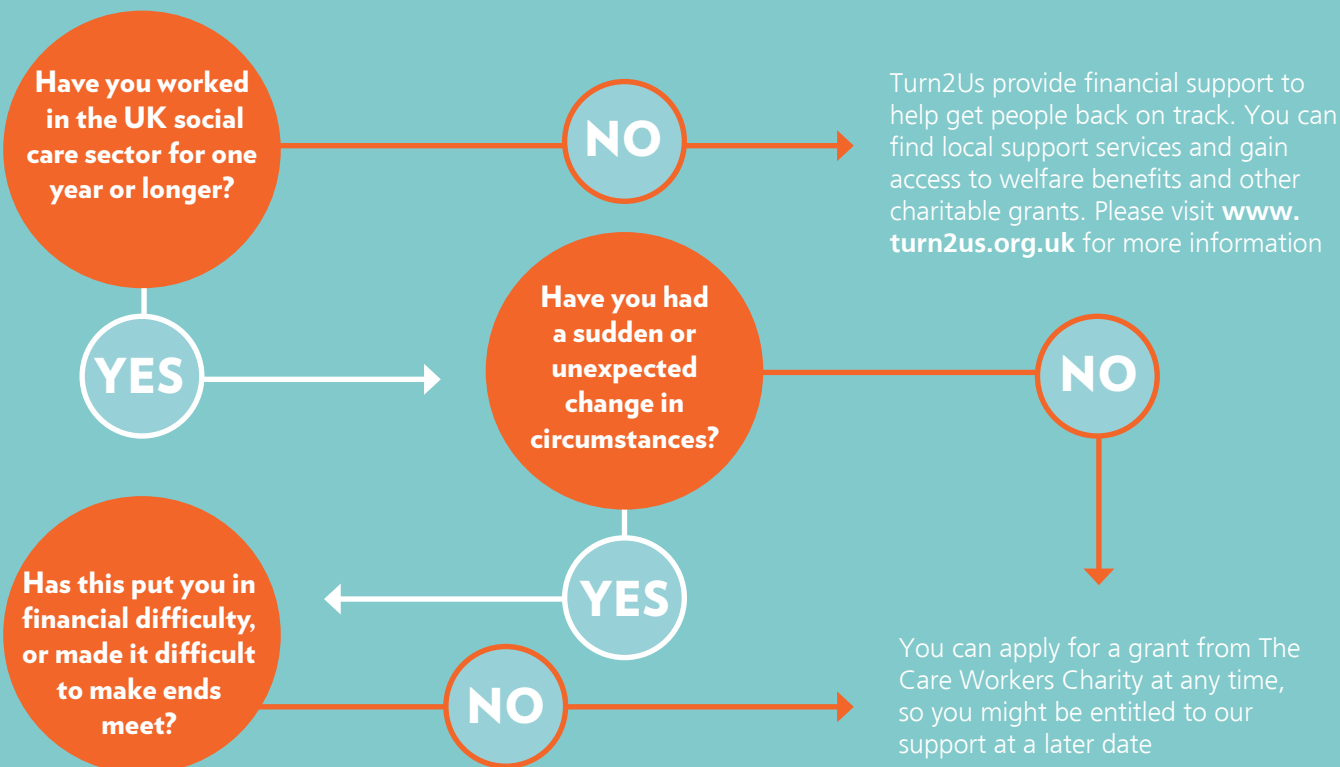

The Care Workers Charity was established to support the UK's care workers with hardship grants when times get tough.

We consider applications from those who have worked in a paid role in the UK's social care sector and are involved in or support the provision of care. This includes people who have been employed in residential social care, home care, supported living care or day care.

“Half of the battle is having the courage to ask for help and I have never felt anything other than support, compassion and kindness from CWC”

Caroline, grant beneficiary
